Designed to support

Helix ,the task chair with a slim silhouette profile and a contoured back frame offers a superior support with an adjustable lumbar pad to provide the perfect ergonomic posture. With its innovative design,intuitive controls and a palette of color options on the frame and the upholstery, the Helix sets a new benchmark for a task chair.Helix is crafted for the way we work today.

Designed to respond

Liberate re-imagines the way the chair should respond adapting to every movement of the user. The chair is built on a unique twin frame concept which incorporates the revolutionary "DynaFlex" mechanism to constantly provide a dynamic movement to the lower lumbar with an intelligent feedback to the user.

The 3D motion synchronizes perfectly with your back in all positions of recline which most of the modern collaborative workspaces demand

- Two-piece back construction
- Unique DynaFlex system
- In-built body flex lumbar support
- Multi-lock synchro mechanism
- Adjustable arms

Liberate MB

The DynaFlex System

This unique system is designed to offer unprecedented flexibility and freedom to the user, putting items on either side within easy reach. It also features a special flex lumbar support that synchronises perfectly with your back in all positions of recline. While in the upright, locked position, DynaFlex provides a comfortable cushioning that stimulates the spine and abdominal muscles to promote a healthy posture and back.

DynaFlex delivers comfort for long hours at the upright 90° position typically suited for computer use. It does so by unconsciously exercising the user's upper body consistently through the day, thereby discreetly and effectively promoting healthy seating and improved work efficiency

Designed for leadership

Pinnacle uses a unique independent bi-panel back frame which can be individually calibrated to get the perfect seating posture and ensure that the spine of every user is well supported. The seat edge controls are easy to use with a toggle control that optimizes the seat depth, seat height and the angle of recline. The range is available with Leather and Mesh trims with optional features such as a retractable leg support and adjustable head restraint.

Pinnacle Leather (EHS-HAL)

Designed for you

Optima Mesh exhibits seating that offers unparalleled levels of comfort and support. Its Biomorphic mesh design aids in superior heat dissipation and ventilation throughout the day and adapts to every contour of the user's body. The lightweight and contemporary design communicates the chair's functionality and adaptability. The intuitive controls for the Lumbar depth and height are tailored to fit the needs of every user. Also available with a conventional foam upholstered seat trim in options of a mid and a high back variant with a flexible head restraint.

Designed for style

Amaze, the chair to tune your productivity to its maximum potential. The design incorporates a self-calibrating mechanism that adapts to the users' body weight to offer the optimum resistance without requiring any manual adjustment. The pronounced frame design coupled with the adjustable lumbar support fine tunes the perfect posture.

The sharp lines with the progressive seat profile offers a strong under thigh support add sophistication to any workplace.

AllWork MB

Designed for harmony

Allwork is a highly adaptable task chair well-crafted for the demands of today's workplace. The simple aesthetics with the contoured back equipped with the vertical adjustable lumbar mechanism offers superior ergonomics. Allwork is created for the way we work today, a versatile, dependable task chair to make every day work a breeze.

Designed for simplicity

By combining traditional and innovative elements, Alpha infuses movement into a traditionally static upholstered chair. The performance you need – the upholstered comfort you love. The mesh back delivers resiliency and flexibility. Plush Cushioning offers immediate comfort without compromising the long term benefits of the flexible materials behind it.

Alpha has a Wraparound Back and a fully upholstered perimeter that offers soft, uninterrupted comfort when moving among postures. Sitting in an Alpha allows you to experience a Deep Dwell for a sense of refuge at a very compelling price point.
