LEGRABOX

- Experience Elegance

 **blum**

INTRODUCTION

Straight lines create a sleek and elegant design that clearly defines LEGRABOX, Blum's new attractive full extension box system exclusively distributed by Häfele.

LEGRABOX offers an impressively slim drawer profile thickness of only 12.8 mm which is straight on the inside and the outside to maximize the usable interior space of the drawer. It is available in four luxurious finishes: Anti-fingerprint Stainless Steel, Terra Black, Orion Grey Matt and Silk White Matt, all of which give it a distinct look and feel.

The **LEGRABOX pure** programme consists of three drawer side heights for standard drawers and two drawer side heights for inner pull-outs. The versatile programme allows for a wide range of design options for any kitchen, bath or furniture application whether used with standard drawers, high fronted drawers or inner drawers. It combines design and function for well-balanced solutions creating elegance in motion.

The look of **LEGRABOX free** is characterised by large design elements that offer the freedom to individualise the design of pull-outs. No matter whether glass, wood or other materials – the design elements go beautifully with the drawer side, add a touch of luxury to furniture interiors and provide full visibility from all three sides.

The new LEGRABOX free design option can be easily combined with LEGRABOX pure, which is extremely practical in kitchens. Both options blend harmoniously into every living area, creating a consistent look for furniture in kitchens, bedrooms, living rooms and bathrooms.

LEGRABOX PROGRAMME

◀◀ *LEGRABOX pure*

LEGRABOX free ▶▶

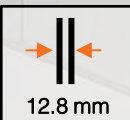

Orion Grey Matt

Silk White Matt

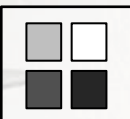

Anti-fingerprint
Stainless Steel

Terra Black Matt

FEATURES

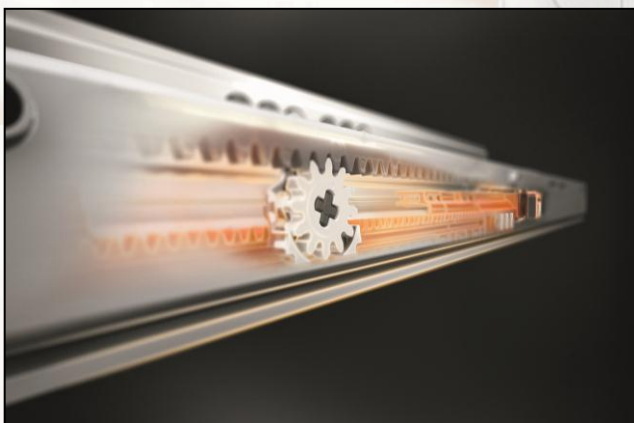

Slim Design: Inspiration for the new LEGRABOX design has been derived from the current trend of minimalistic interiors. The impressively slim **12.8 mm** side panels, which are straight on the inside and outside, can be inserted harmoniously into any furniture.

New Colour Concept: LEGRABOX features a completely new colour concept. The entire material is made either from anti-fingerprint stainless steel or steel with matt coating, giving it a unique feel

Advanced Runner Technology: LEGRABOX leads the way in terms of technology. Its innovative runner system offers greater ease of use. The synchronisation of the drawer profile, roller carriage and the cabinet profile enables easy transition with smooth running action and low opening forces

FEATURES

40 Kg.
70 Kg.

Weight Carrying Capacity: LEGRABOX performs outstandingly even when fully extended and heavily loaded. Even very wide and heavy pull-outs have low sag values and a smooth running action thanks to the dynamic weight carrying capacity of 40 and 70 kg.

Stability: High fronts are becoming more and more significant as a design element. LEGRABOX supports this design trend with a new type of front fixing bracket that guarantees maximum stability while opening and closing.

Easy Assembly and Removal: The new LEGRABOX front fixing bracket enables fast and safe assembly and removal. All you need to do is place the front in its holding position and it will easily clip into place.

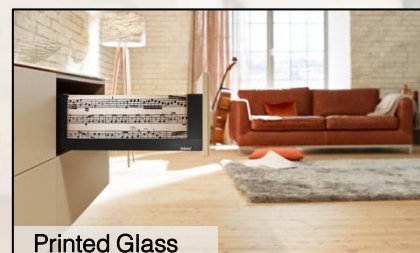

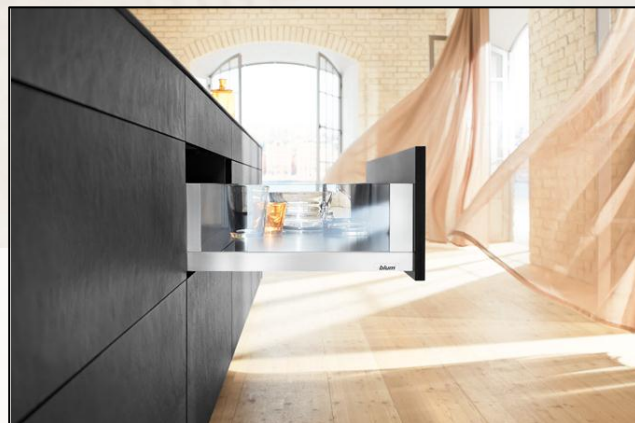

Thanks to the holding positions, even very wide fronts can easily be removed by one person alone.

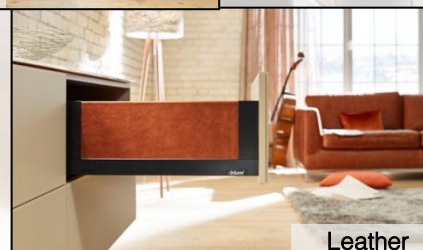

FEATURES

Versatile Designs: Alongside LEGRABOX pure with matt, metallic surfaces, the LEGRABOX free design version allows height C high fronted pull-outs to be customised to individual designs.

Printed Glass

Leather

Individual Accents: The LEGRABOX free design version makes each piece of furniture look unique. The large space effectively highlights the design element that could be made of glass, wood, leather or stone

Wood

Concrete

TECHNOLOGY

BLUMOTION

by Blum

***BLUMOTION:** The integrated, adaptive dampening system always closes softly and effortlessly.*

SERVODRIVE

by Blum

***SERVODRIVE:** With the electrical motion support, handle-less furniture can be opened with a simple press. SERVODRIVE can be combined with BLUMOTION for a silent and effortless closing action.*

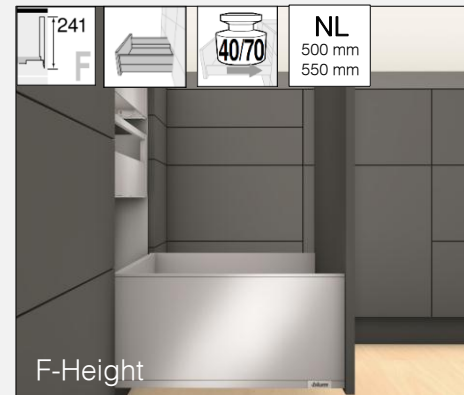

***Note:** the fittings for SERVODRIVE remain the same as those used in TANDEMBOX*

RANGE OVERVIEW

LEGRABOX pure

Standard Drawers

Inner Drawers

Note: The installation of the C-height inner drawer comes with an option of installing either a low design element with the help of spacers or a high design element

RANGE OVERVIEW

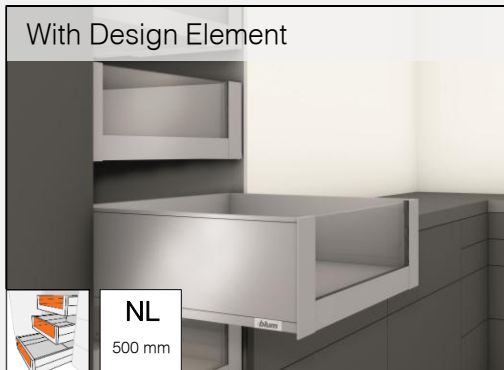

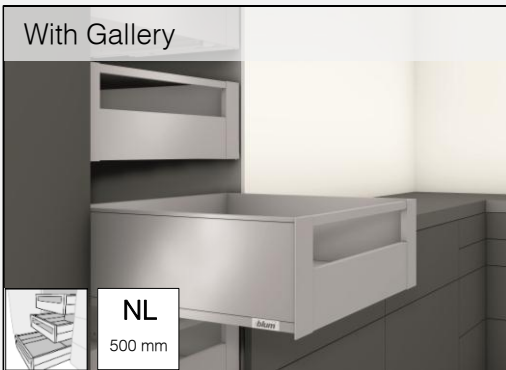

LEGRABOX pure

SPACETOWERS (1 M-Height Inner Drawer; 40 Kgs. and 4 C-Height Inner Drawers; 70 Kgs.)

Larder Units (5 C-Height Inner Drawers; 40 Kgs.)

Narrow Cabinets (Top: M-Height Standard Drawer; Bottom: C-Height Standard Drawer)

Sink Unit (Exterior: C-Height Drawer Side; Interior: M-Height Drawer Side)

RANGE OVERVIEW

LEGRABOX free

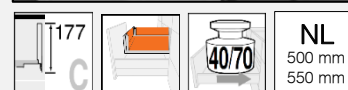

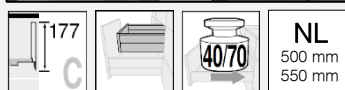

LEGRABOX free is available only for the C Drawer Side Height

Standard Drawers

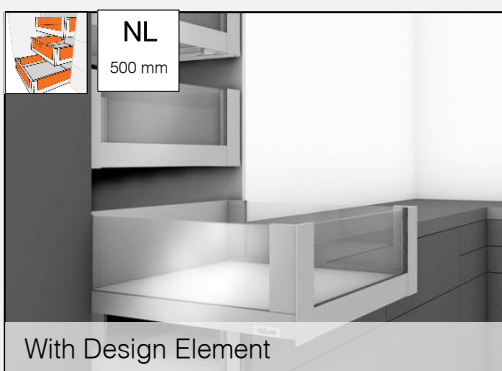

Inner Drawers

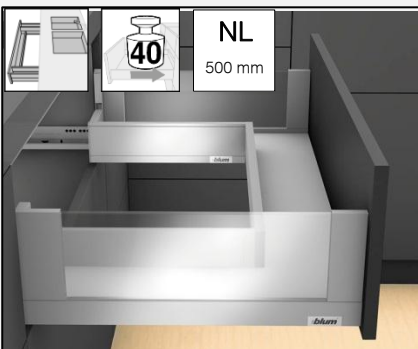

SPACETOWERS (1 M-Height Inner Drawer; 40 Kgs. and 4 C-Height Inner Drawers; 70 Kgs.)

Larder Units (5 C-Height Inner Drawers; 40 Kgs.)

Sink Unit (Exterior: C-Height Drawer Side; Interior: M-Height Drawer Side)

Note: The installation of the C-height inner drawer comes with an option of installing either a low design element with the help of spacers or a high design element

BOM COMPONENTS

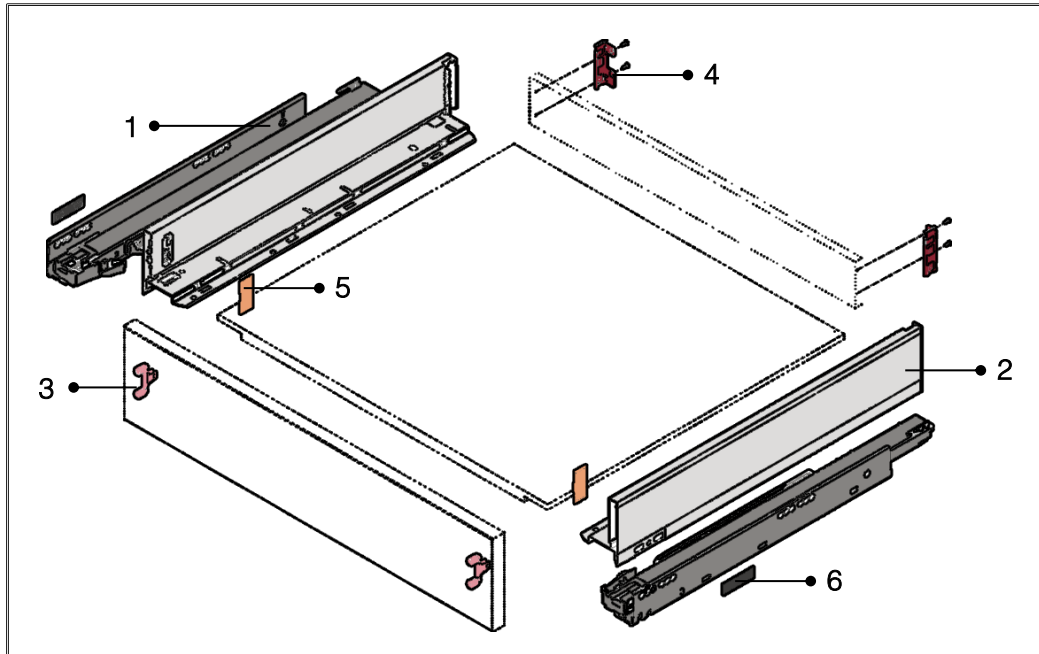

FOR STANDARD DRAWERS : FRONT AND BACK FIXING BRACKETS

Heights	M-Height: 90.5 mm	C-Height: 177 mm	F-Height: 241 mm
Symmetrical Front Fixing Bracket (on one side)		 	  
Total (on both sides)	2	4	6
Back Fixing Bracket (on one side)			
Total (on both sides)	2	2	2

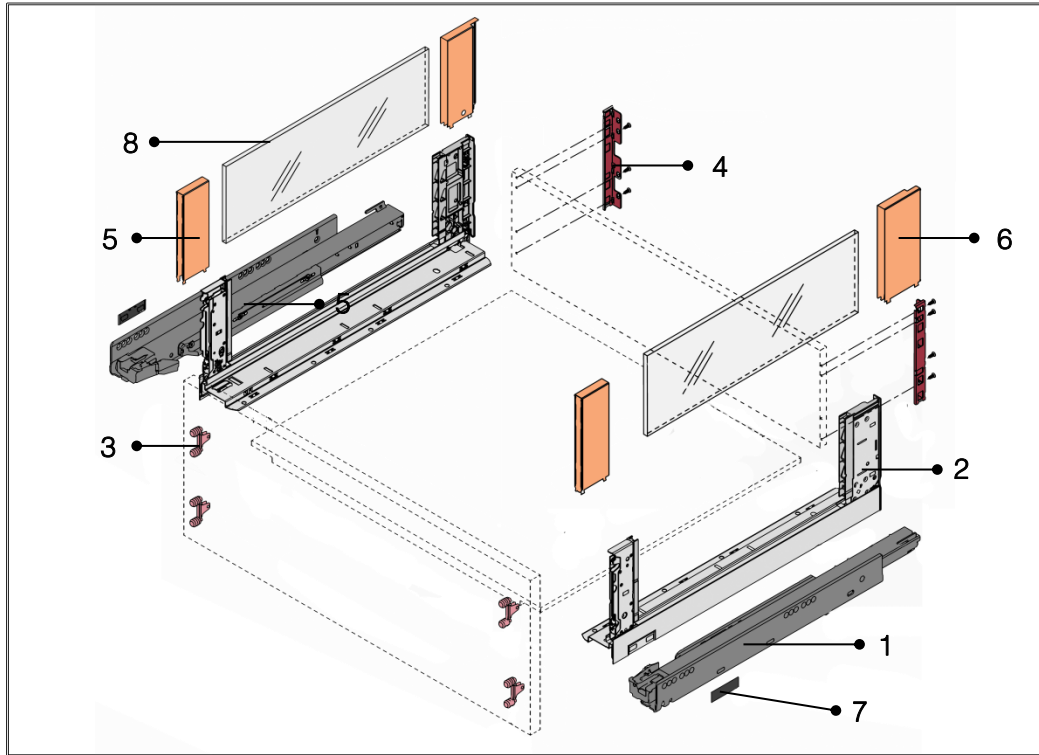

BOM COMPONENTS: LEGRABOX pure FOR STANDARD M-HEIGHT DRAWERS

1	Cabinet Profiles (Left and Right)
2	Drawer Sides (Left and Right)
3	EXPANDO Front Fixing Bracket
4	Back Fixing Bracket (Left and Right)
5	Internal Rectangular Symmetrical Cover Cap
6	External Rectangular Symmetrical Printed Cover Cap

Note: BOM Components for a standard C and F-height drawer remain the same as the M-Height (shown above) except for the front fixing and back fixing brackets (refer to Pg. 12 for details)

BOM COMPONENTS : LEGRABOX free FOR STANDARD C-HEIGHT DRAWERS

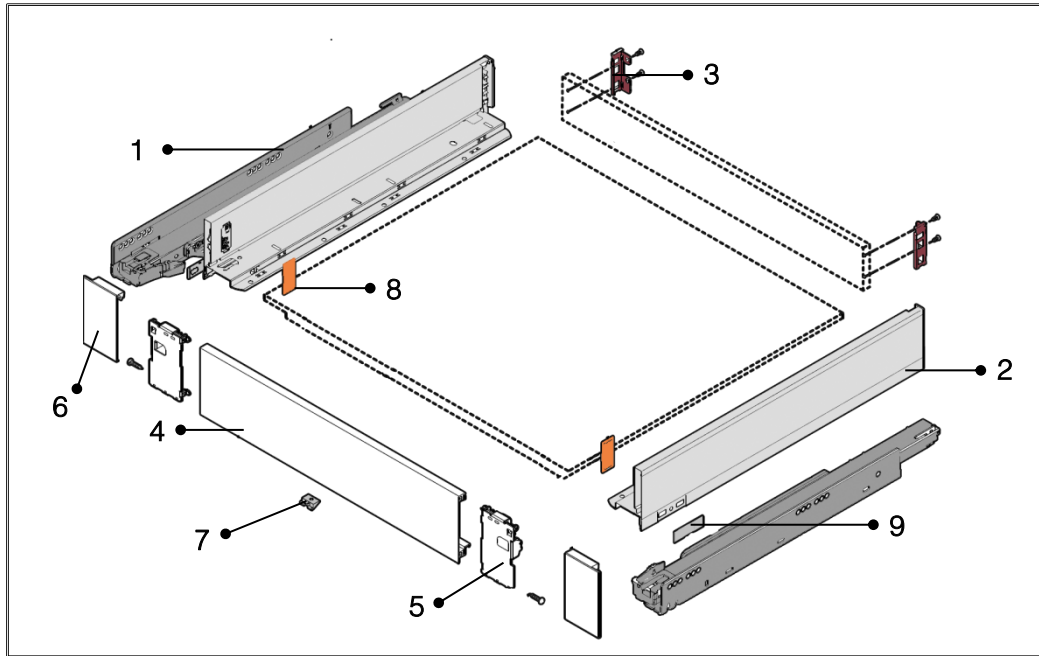

Key	BOM Component
1	Cabinet Profiles (Left and Right)
2	Drawer Sides (Left and Right)
3	EXPANDO Front Fixing Bracket
4	Back Fixing Bracket (Left and Right)
5	Box Cover Front (Left and Right)
6	Box Cover Back (Left and Right)
7	External Rectangular Symmetrical Printed Cover Cap
8	Design Element - Side (To be procured externally)

BOM COMPONENTS: LEGRABOX pure

M-HEIGHT INNER DRAWER: WITHOUT DESIGN ELEMENT

Key	BOM Component
1	Cabinet Profiles (Left and Right)
2	Drawer Side (Left and Right)
3	Back Fixing Bracket (Left and Right)
4	Front Section without Groove (Length: 1080 mm, to be cut to size)
5	Nickel Front Fixing Bracket (Left and Right) with Fixing Screws
6	External Front Fixing Cover Cap (Left and Right)
7	Locking Piece
8	Internal Rectangular Symmetrical Cover Cap
9	External Rectangular Symmetrical Printed Cover Cap

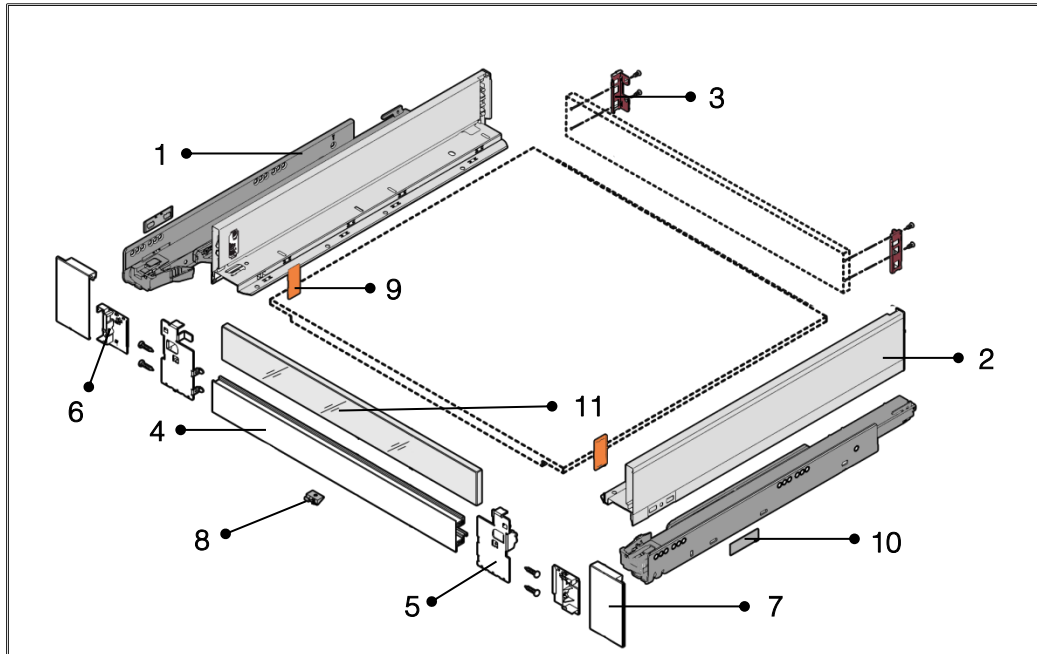

Note: Latch and Latch Housing, used for synchronised opening of the inner and the high-fronted pull-out, need to be ordered separately, if required.

BOM COMPONENTS: LEGRABOX pure

M-HEIGHT INNER DRAWER: WITH DESIGN ELEMENT

Key	BOM Component
1	Cabinet Profiles (Left and Right)
2	Drawer Side (Left and Right)
3	Back Fixing Bracket (Left and Right)
4	Front Section with Groove (Length: 1043 mm, to be cut to size)
5	Nickel Front Fixing Bracket (Left and Right) with Fixing Screws
6	Internal Front Fixing Cover Cap (Left and Right)
7	External Front Fixing Cover Cap (Left and Right)
8	Locking Piece
9	Internal Rectangular Symmetrical Cover Cap
10	External Rectangular Symmetrical Printed Cover Cap
11	Design Element – Front and Side (To be procured externally)

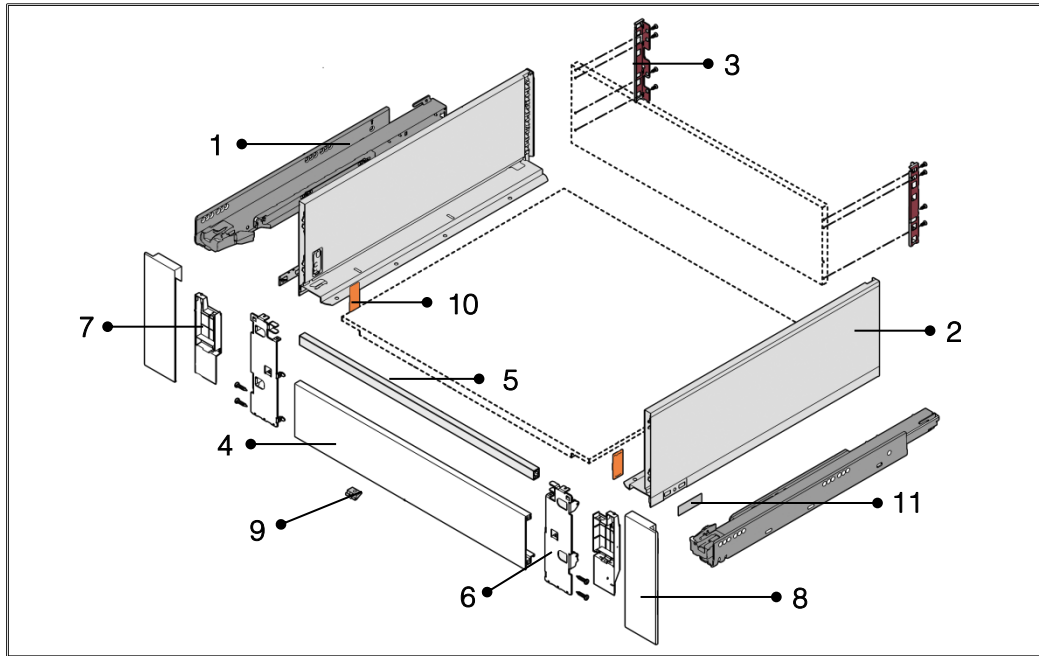

Note: Latch and Latch Housing, used for synchronised opening of the inner and the high-fronted pull-out, need to be ordered separately, if required.

BOM COMPONENTS: LEGRABOX pure

C-HEIGHT INNER DRAWER: WITH GALLERY

Key	BOM Component
1	Cabinet Profiles (Left and Right)
2	Drawer Side (Left and Right)
3	Back Fixing Bracket (Left and Right)
4	Front Section without Groove (Length : 1043 mm, to be cut to size)
5	Gallery (Length: 1080 mm, to be cut to size)
6	Nickel Front Fixing Bracket (Left and Right) with Fixing Screws
7	Internal Front Fixing Cover Cap (Left and Right)
8	External Front Fixing Cover Cap (Left and Right)
9	Locking Piece
10	Internal Rectangular Symmetrical Cover Cap
11	External Rectangular Symmetrical Printed Cover Cap

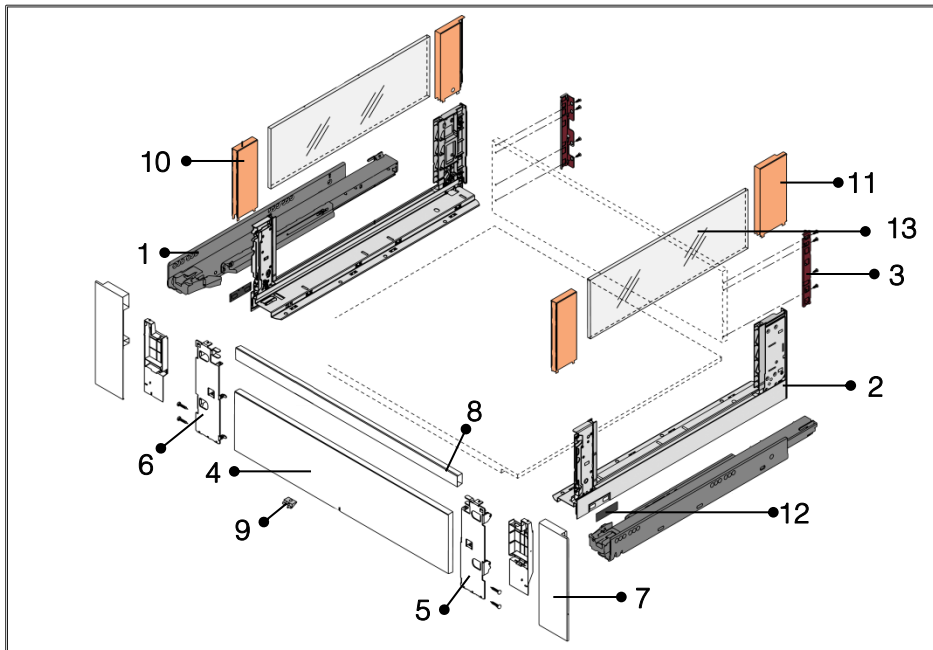

Note: Latch and Latch Housing, used for synchronised opening of the inner and the high-fronted pull-out, need to be ordered separately, if required.

BOM COMPONENTS: LEGRABOX free

C-HEIGHT INNER DRAWER: WITH GALLERY

Key	BOM Component
1	Cabinet Profiles (Left and Right)
2	Drawer Side (Left and Right)
3	Back Fixing Bracket (Left and Right)
4	Front Section with Groove (Length :1043 mm, to be cut to size)
5	Nickel Front Fixing Bracket (Left and Right) with Fixing Screws
6	Internal Front Fixing Cover Cap (Left and Right)
7	External Front Fixing Cover Cap (Left and Right)
8	Gallery (Length: 1080 mm, to be cut to size)
9	Locking Piece
10	Box Cover Front (Left and Right)
11	Box Cover Back (Left and Right)
12	External Rectangular Symmetrical Printed Cover Cap
13	Design Element –Side (To be procured externally)

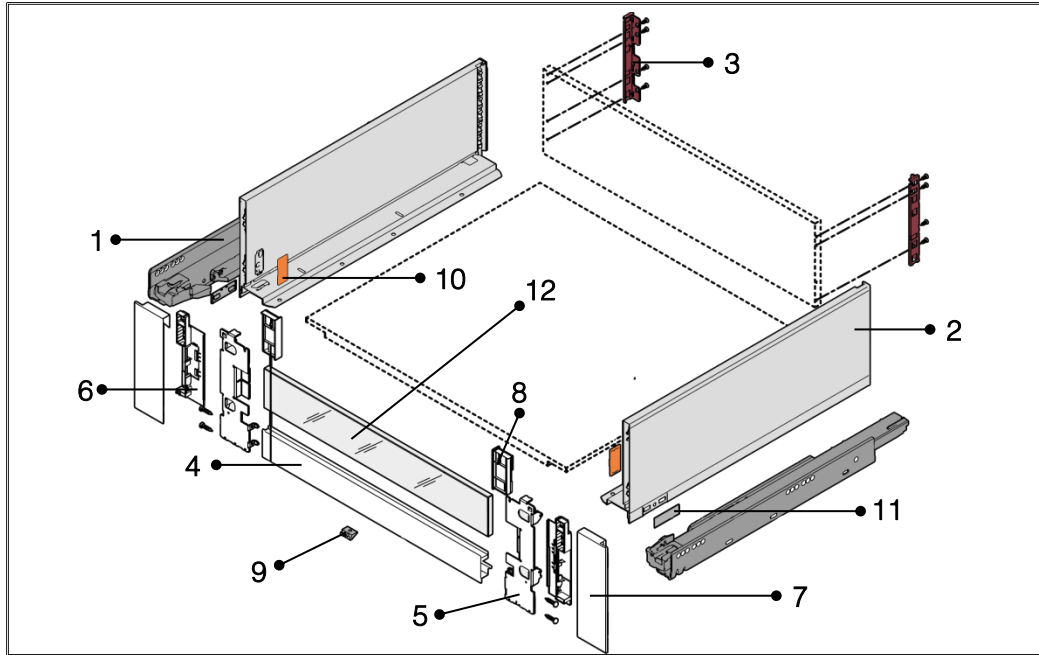

Note: Latch and Latch Housing, used for synchronised opening of the inner and the high-fronted pull-out, need to be ordered separately, if required.

BOM COMPONENTS: LEGRABOX pure

C-HEIGHT INNER DRAWER: WITH LOW / HIGH DESIGN ELEMENT

Key	BOM Component
1	Cabinet Profiles (Left and Right)
2	Drawer Side (Left and Right)
3	Back Fixing Bracket (Left and Right)
4	Front Section with Groove (Length :1043 mm, to be cut to size)
5	Nickel Front Fixing Bracket (Left and Right) with Fixing Screws
6	Internal Front Fixing Cover Cap (Left and Right)
7	External Front Fixing Cover Cap (Left and Right)
8	Distance Adjustment Bracket (Left and Right) to be used for low glass design element
9	Locking Piece
10	Internal Rectangular Symmetrical Cover Cap
11	External Rectangular Symmetrical Printed Cover Cap
12	Design Element – Front and Side (To be procured externally)

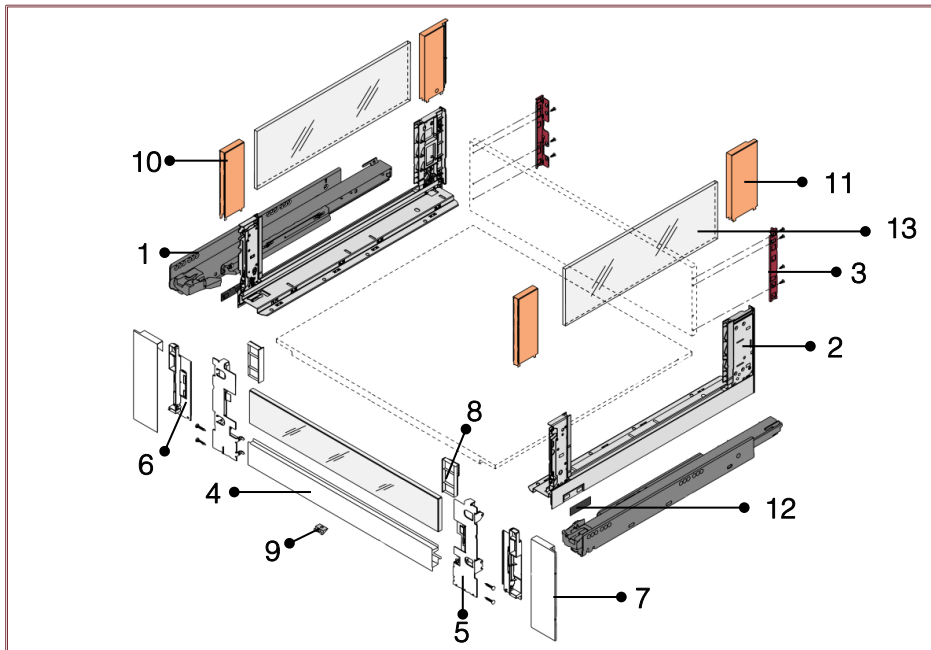

Note: Latch and Latch Housing, used for synchronised opening of the inner and the high-fronted pull-out, need to be ordered separately, if required.

BOM COMPONENTS: LEGRABOX free

C-HEIGHT INNER DRAWER: WITH LOW / HIGH DESIGN ELEMENT

Key	BOM Component
1	Cabinet Profiles (Left and Right)
2	Drawer Side (Left and Right)
3	Back Fixing Bracket (Left and Right)
4	Front Section with Groove (Length :1043 mm, to be cut to size)
5	Nickel Front Fixing Bracket (Left and Right) with Fixing Screws
6	Internal Front Fixing Cover Cap (Left and Right)
7	External Front Fixing Cover Cap (Left and Right)
8	Distance Adjustment Bracket (Left and Right) to be used for low glass design element
9	Locking Piece
10	Box Cover Front (Left and Right)
11	Box Cover Back (Left and Right)
12	External Rectangular Symmetrical Printed Cover Cap
13	Design Element – Front and Side (To be procured externally)

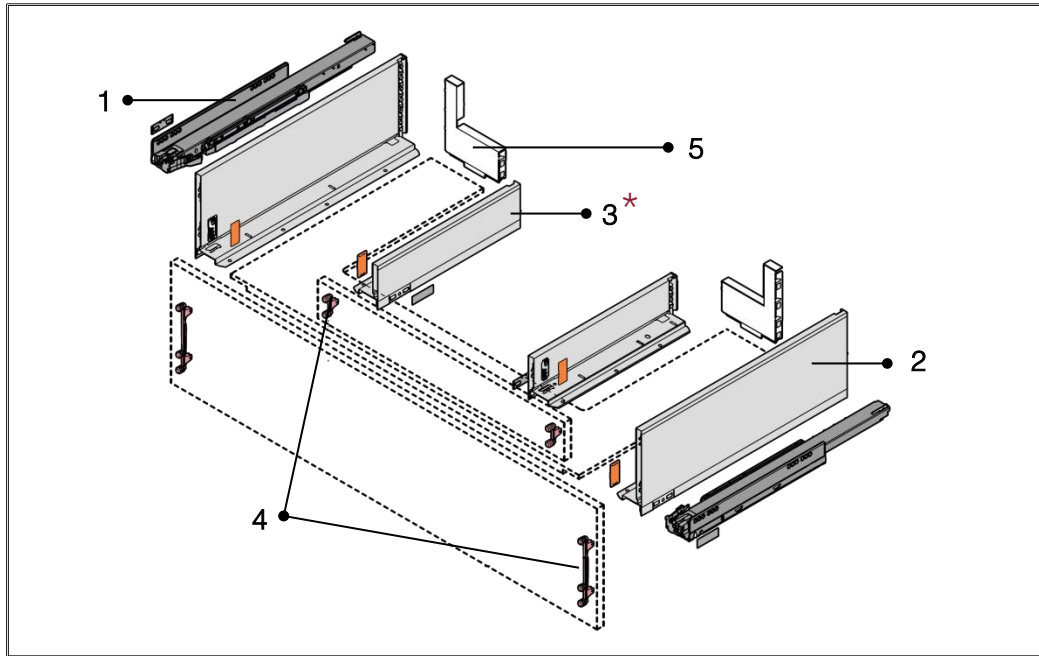

Note: Latch and Latch Housing, used for synchronised opening of the inner and the high-fronted pull-out, need to be ordered separately, if required.

RANGE COMPARISON

LEGRABOX V/S TANDEMBOX

Range Name:	LEGRABOX	TANDEMBOX
Disassembly:	The drawer can be easily detached from the runners using the detaching clips on the locking pieces pre-fixed to the runner	The drawer can be detached from the runners by pulling and lifting.
Storage Space:	The space available widthwise for storage would be : LW (internal width) minus 41mm	The space available widthwise for storage would be : LW (internal width) minus 75mm
Storage Stability:	Increased storage stability due to completely straight drawer sides 	Storage items are secured from falling out by the drawer side 
Height Options:	Standard Drawers: M, C and F Inner Drawers: M and C	Standard and Inner Drawers: M, B and D
High Fronted Drawers:	High fronted drawers have greater stability of motion with lower sag values	Lower stability of motion and higher sag values when used with high fronted drawers (as compared to LEGRABOX drawers)
Adjustments:	All 3 adjusting screws are conveniently placed and easily accessible on the inside of the drawer sides (rear and front)	The height and side adjusting screws are placed on the outsides of the drawer sides. Tilt adjustment can be done via galleries (plus, antaro) or a screw placed below cover cap (intivo).
Soft Close:	The soft close is safely enclosed in a separate housing protecting it from dust, wood chippings etc.	The soft close unit (BLUMOTION /BLUMATIC) has no additional housing
Applications:	Standard and Inner Drawers, Tall Units, SPACETOWERS, Narrow and Sink Cabinets	Standard and Inner Drawers, Tall Units, SPACETOWERS, Narrow and Sink Cabinets, SPACE CORNERS
Inner Dividing System:	AMBIA-LINE	ORGA-LINE

IMPORTANT INFORMATION

- For cabinet widths at and greater than **900 mm up to 1400 mm**, the use of **Side Stabiliser** (provides additional support and stabilisation for extra wide-fronted pull-outs) that can be cut to size and a **Base Stabiliser** (reinforces the connection between the base and the front) is recommended.

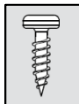

Side Stabiliser

Base Stabiliser

- For fixing the Drawer Sides to the base and the Back Fixing Brackets to the back panel we require **Pan Head Screws** (included in the BOMS) while for fixing the Runners we require **Chipboard Screws** (to be ordered separately).

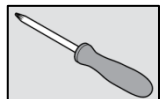

Pan Head Screws

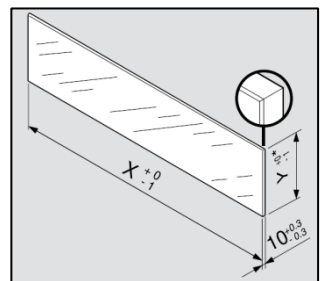

Chip Board Screws

- The **adjustment screws** of LEGRABOX can only be acted upon by a **Torx Screwdriver Size 20** (Needs to be ordered separately).
- Latch and Latch Housing, used for synchronised opening of the inner and the high-fronted pull-out, need to be ordered separately, if required.

Design Element:

- Design Element for M and C-Height Inner Drawers needs to be **procured externally**
- The installation of the C-height inner drawer comes with an option of installing either a **low design element** with the help of spacers or a **high design element**.
- The **width (X)** for both low and high design element should be:
 - Front : LW (Internal Cabinet Width) – 80 mm
 - Side : NL (Nominal Length) – 112 mm
- The **thickness** of both low and high design element should be **10 mm**
- While the **height (Y)** for:
 - Low design element should be: 70 mm
 - High design element should be: 138 mm
