Supernatural™

The One of a Kind Collection

Just like an original work of art, every Supernatural slab is one of a kind a quartz surface that will take your interior décor to a whole new level. Mirroring nature's endless diversity and beauty, each slab is finished to perfection.

Inspired by some of the world's most beautiful natural marble, Caesarstone's supernatural designs represent the very best of what nature has to offer. Using cutting-edge technology, these earthy tones and delicate veins are infused with intricacies and textures never before seen on quartz surfaces.

The new Supernatural designs adorn any modern interior, while maintaining all the advantages and timeless qualities that make Caesarstone special.

Metropolitan™ The Metropolitan Collection is a unique collection leading the urban interior trend. The Metropolitan Collection reflects the authentic textures of manufacturing, such as oxidized steel, poured plaster and raw concrete. These unpolished designs reveal variations in appearance and capture depth and movement throughout the surface. Caesarstone's new cutting-edge technology achieves a weathered patina in quartz never experienced before.

Outdoor Countertops:

When designing an outdoor surface we need to take gravity into account: everything floating in the air will end up falling onto it. And it can be unused for weeks and months. A strong material with high resistance to UV-rays, thermal fluctuations, Scratches and stains would be your best bet in such applications. Sounds hypothetical? Not really. Dekton surfaces come with the ideal properties to sustain the harsh conditions of outdoor applications and thus become your ideal choice for countertops that need to be installed outside your home. The myriad choice of finishes and designs available in this range can help you create a unique application, just the kinds you had always imagined.

Entzo **562.58.146**

**Wall Cladding:**

Gone are the days when your kitchen and dado walls hide behind plastered paints, inconsistent tiles or dull wall papers. Dekton's unique surface properties like low water absorption and fire resistance make it an ideal choice for wall cladding applications in kitchens as well as the other areas of your interior spaces. Moreover the dimensional stability provides an overall consistency in design making for a seamless look without borders or differences. The end result is a surface that adorns your walls with spectacular aesthetics as well as robust and ever-lasting durability

Flooring and Indoor Countertops:

The aesthetic appeal of any kitchen is greatly emphasized by the choice of countertops and flooring materials used. Today, the need to move away from clinical and functional designs is changing the spectrum of material choices available in the market. Dekton, with its unique material properties, forms an ideal choice for every surface in your kitchen – be it countertops, flooring or even cabinet fronts. It's scratch and stain resistance properties along with low water absorption levels make it a robust choice for countertops and floorings. The spectrum of designs and patterns available through Dekton, bring with it the flexibility to design your kitchen your way – you may choose to follow a seamless synergy between the flooring, cabinets and countertops or else bring in a healthy contrast of tones.
