INNOVATIVE  
BED SYSTEMS

We often turn the storage space under our mattress into an extended wardrobe to stack our bags, books, traditional wear etc. However, in order to do this we have to manually lift the bed mattress and bed frame which can be very tedious on the one hand and can also expose us to possible contamination, on the other hand. Häfele brings to you a **new-age storage bed fitting – Gravity**, which with its sleek build ensures not only optimal utilization of space available but also provides uninterrupted access to the storage space. With this bed fitting, you can enjoy hands-free opening, all you need to do is kick the pedal below the footboard and the mattress lifts itself up automatically.

Creating more space from what's available has always been a challenge. Whether it has been due to shortage in storage space or lack of free area for you to creatively unwind after a tiring day at work – things are constantly moved around in a bid to create some space. We at Häfele, believe in offering solutions that would help you utilise every available space in your home and while we are at it, do so in the most minimal way possible. **The Supernova Hide-away Bed Fitting** inconspicuously folds into a cabinet when not in use. The push-to-open feature ensures ease of access with minimum contact with the bed as well as provides the bed fitting with a contemporary handle-less look.

- **MATERIAL:** Bed Fittings – Mild Steel; Slats – Beech Wood
