INTRODUCING
Jaquar Maze Showers
High performance. Unique design

Discover a beautiful new showering experience that's softer, smoother, fuller. Jaquar Maze Showers deliver an unmatched showering experience even in low water pressure conditions and a softer, cozier feel in high water pressure conditions. Maze showers' contemporary, minimalistic, one-of-its-kind design incorporates the shower nozzles in groups of concentric lines, imparting it an aesthetic that completes the look of the modern bathroom.

Available in an array of sizes in round, square or oval shapes, Maze Showers are easy to maintain and built to endure varying water pressure conditions with a Jaquar-patented inverted riveting system.
